**Your Canadian Fishing Destination... Where Traditions Start!**

# Angling is a Tradition and a Responsibility

You can help ensure the quality of Ontario's fisheries and your angling experience for generations to come.

## Best Practices:

### Respect Each Other

- Share the water with other users – anglers, boaters and swimmers.
- Racial discrimination has no place in Ontario.

### Respect Shoreline Property Owners

- Always ask permission before entering or crossing private property.
- Respect the privacy of on-shore public when fishing.

### Minimize Your Impact on the Environment

- Don't litter. Minimize pollution.
- Help prevent the spread of exotic plants and animals.
- Dispose of your bait and fish entrails properly.
- Know the catch and size limits for the water you are fishing.
- Limit your catch, don't catch your limit.
- When practising catch and release, handle fish with care and release them as quickly as possible.

### Understand and Follow Ontario's Fishing and Safe Boating Regulations

Report resource abuse and violations to the TIPS-MNR Line

## IMPORTANT NOTICE

This is a summary of information dealing with fishing licences and fishing laws. This Summary is neither a legal document nor a complete collection of the current regulations. It is meant to be a convenient reference only.

For details on the current regulations see:

- Fish and Wildlife Conservation Act and regulations
- Federal Fisheries Act
- Ontario Fishery Regulations
  - Close times, fishing quotas and limits on the size of fish established in the Ontario Fishery Regulations may be changed through Variation Orders which are available online at [ontario.ca/fishing](http://ontario.ca/fishing).

The maps presented in this Summary are provided as a guide only. Due to the scale of the maps, the official plan (detailed information) for the boundaries of the Zones cannot be provided in this Summary.

You can obtain specific details of the regulations, including more detailed maps of Zone boundaries from [ontario.ca/fishing](http://ontario.ca/fishing) or local MNR offices.

Find the Ministry of Natural Resources at:

## MESSAGE FROM THE GOVERNMENT OF ONTARIO

Fishing is one of the most popular outdoor activities for Ontario residents and visitors alike. With a quarter million lakes and many rivers and streams, the province offers a wide range of angling opportunities.

Outdoor recreation, such as angling, is a great way for families to spend time together, to learn about the importance of healthy waters and fish communities to our way of life, and to promote greater appreciation of nature.

With a range of fishing experiences from walleye in remote northern lakes to world class salmon and trout fishing within an hour of Toronto, there is a fishing opportunity for everyone. This publication helps you know when and what you can catch so that you have a great time fishing while helping to ensure the fishery will be available for future generations.

This year marks an important milestone for Ontario's recreational fisheries. In 2008, the Government initiated a new ecological approach to fisheries management which includes improved fisheries monitoring and enhanced public participation. Since 2008, over 370 lakes have been sampled as part of a long-term monitoring program to better understand the state of our resources.

Fisheries Management Zone Advisory Councils, comprised of a broad range of public stakeholders, are being established across Ontario. Council members are doing a great public service by volunteering their time and providing advice to ensure Ontario's fisheries provide benefits now and in the future. The 2010 Fishing Summary is the first edition to reflect the advice of the Zone Advisory Councils.

We can all do our part to keep Ontario's recreational fishery healthy. Read the summary, follow the rules, and share your love of fishing. Please respect the natural environment and one another when enjoying the outdoors.

### Ministry of Natural Resources Fish and Wildlife Funding

Since 1996, Ontario has put all licence fees, royalties and fines collected under the Fish and Wildlife Conservation Act into a Special Purpose Account that is used exclusively for fish and wildlife management.

For 2009/10, approximately \$64.1 million is planned to be sourced from the Fish and Wildlife Special Purpose Account. The remaining funding comes from other provincial sources.

### Fish and Wildlife Heritage Commission

The Fish and Wildlife Heritage Commission was created in 2002 to advise the Minister on matters related to the promotion of hunting and fishing, funding of the Fish and Wildlife Program, and other matters as requested by the Minister. The Commission currently has nine members who represent a cross-section of people with a keen interest in the sustainable use of our fish and wildlife resources. Over the past year, the Commission has been working hard on a number of key issues, including the development of strategies to engage youth in our fishing and hunting heritage.

## HOW TO USE THIS SUMMARY

For recreational fishing purposes, Ontario is divided into 20 Fisheries Management Zones (Zones). The map below indicates the general location of these Zones within Ontario.

Please follow these step-by-step instructions to be sure that you comply with the regulations.

**1. Make sure that you have a valid Ontario fishing licence.**

**2. Carefully read the General Regulations section.**

Here you will find information that applies to fishing in all Zones, including general prohibitions, definitions, as well as information on ice fishing, bait, transporting fish, non-angling methods and laws to help stop the spread of invading species.

**3. Using the map below, determine the Zone in which you plan to fish. For more detailed information, see the Zone section in which you plan to fish.**

**4. Check the Zone regulations table to determine:**

- The open season for fishing for any species you plan to target in that Zone.
- The catch and possession limits and size limits, if applicable, for those species in that Zone.

**5. Remember that most catch and possession limits and some size limits are different for a holder of a Sport Fishing Licence than for a holder of a Conservation Fishing Licence.**

- **S** - refers to limits under a Sport Fishing Licence.  
For example: S-4 = catch and possession limit of four.
- **C** - refers to limits under a Conservation Fishing Licence.  
For example: C-2 = catch and possession limit of two.

**NOTE:** all size limits refer to total length – refer to Angler's Guide to Fishing Regulations, page 7.

**6. Also, don't forget to check the additional fishing opportunities for each Zone to make the most of your fishing experience.**

### THEN YOU MUST

**7. Check the exceptions to the General Regulations for the waters or general area in which you will be fishing.**

- If there are any exceptions to the general rule for the Zone, you must comply with those exceptions.

**NOTE:** In some cases, lower limits or size limits stated in the exceptions apply only to Sport Fishing Licence holders. If no Conservation Fishing Licence limit or size limit is stated for exception waters, then the Conservation Licence limit is the same as for the rest of the Zone for that species and can be found in the Zone Regulations Table.

**8. Non-Canadian residents fishing in northwestern Ontario must also check page 12.**

## RECREATIONAL FISHING LICENCE INFORMATION

### MOST PEOPLE NEED ONE OF THE FOLLOWING RECREATIONAL LICENCES TO FISH IN ONTARIO

**Sport Fishing Licence:** For anglers who want full catch and possession fishing privileges. In this Summary, S - refers to limits under a Sport Fishing Licence (e.g., S - 4 = catch and possession limit of 4).

**Conservation Fishing Licence:** A reduced catch and possession limit licence that is ideal for anglers who want to live-release the majority of fish caught. Under this licence, anglers must immediately release muskellunge, Atlantic salmon and aurora trout. In this Summary, C - refers to limits under a Conservation Fishing Licence (e.g., C - 2 = catch and possession limit of 2).

Refer to the Zone tables and the exceptions for catch and possession limits.

### RECREATIONAL FISHING LICENCE INFORMATION FOR ONTARIO RESIDENTS AND CANADIAN RESIDENTS

**Ontario Resident:** An Ontario resident is defined as a person whose primary residence is in Ontario and who has lived in Ontario for a period of at least six consecutive months during the 12 months immediately before applying for a licence.

**Canadian Resident:** A Canadian resident is defined as a person who is a non-Ontario resident and whose primary residence is in any part of Canada and who has lived in Canada for a period of at least six consecutive months during the 12 months immediately before applying for a licence.

**Non-Canadian Resident:** A person who is neither an Ontario nor Canadian resident (see page 6 for licence information).

For **Ontario Residents** a complete and valid licence to fish consists of an Outdoors Card plus a valid fishing licence tag, or a Temporary Fishing Licence and Outdoors Card Application. The Outdoors Card is a plastic, wallet-sized identification card to which your Ontario fishing licence tag is affixed. The Outdoors Card is valid for three calendar years and serves as a durable carrier for your licence tags.

For **Canadian Residents** a complete and valid licence to fish consists of an Outdoors Card or a Temporary Outdoors Card and Application plus a valid fishing licence tag for Canadian residents. The Outdoors Card is a plastic, wallet-sized card used for identification and administration purposes.

**A person is deemed to be the holder of a Recreational Fishing Licence if they are:**

1. Residents of Ontario and Canada under 18 years old, or 65 years of age or older and in possession of any licence, permit, certificate, or identification card issued by the Government of Canada or a provincial or territorial government of Canada that indicates their name and date of birth.
2. Disabled Ontario and Canadian residents eligible for and in possession of:
  - A Canadian National Institute for the Blind National Identity Card issued to them; or,
  - An Ontario Ministry of Transportation Accessible Parking Permit issued to them; or,
  - A black and white photocopy or printed version of an electronic copy of the Ontario Ministry of Transportation Accessible Parking Permit accompanied by any licence, permit, certificate, or identification card issued by the Government of Canada or a provincial or territorial government of Canada that indicates the person's name and date of birth.
  - Any licence, permit, certificate or identification card issued by the Government of Canada or a provincial or territorial government of Canada that indicates the person's name and date of birth where the individual must be accompanied by and require the direct assistance of another person to fish and follow applicable fishing laws due to

a condition of mental impairment or a developmental disability, a learning disability or dysfunction, or a mental disorder. The person accompanying the above person does not require a fishing licence if they are only assisting, but must have a licence if they wish to engage in fishing.

Those who qualify to fish with a deemed licence must follow the same catch and possession limits as a Sport Fishing Licence.

**Aboriginal people:** Members of Ontario Aboriginal communities having established Aboriginal or treaty rights do not require an Outdoors Card or Ontario fishing licence tag to take fish for personal use within their traditional or treaty territory. Personal use means use for food, social or ceremonial purposes. Individuals should be prepared to provide identification when showing their community membership. Members of Aboriginal communities fishing outside of their traditional or treaty areas must have a valid Ontario Outdoors Card and fishing licence tag and follow the corresponding seasons, limits and exceptions.

### APPLYING FOR YOUR FIRST OUTDOORS CARD AS AN ONTARIO RESIDENT

**1. If you can wait,** submit an Outdoors Card application through the mail. You will receive the card and fishing licence tag you selected in approximately four to six weeks. To have an application mailed to you, call the Outdoors Card Centre at 1-800-387-7011. You can also pick up an Outdoors Card application at any ServiceOntario office (see pg. 96).

**2. If you want to fish right away,** a temporary paper licence and Outdoors Card Application is available from more than 1,800 licence issuers across the province.

The delivery time for an Outdoors Card may vary. An Outdoors Card renewed by telephone or online arrives in approximately 20 days. Mail-in renewal takes approximately four to six weeks. If you're renewing by purchasing a Temporary Outdoors Card, the card should arrive before year end depending upon when purchased.

#### What you need to know about your Outdoors Card.

- You must notify the Ministry of Natural Resources of any address or name change **within 10 days of the change**. You can change your address or name by calling the Outdoors Card Centre at **1-800-387-7011**, online (address change only) at [ontario.ca/outdoorscard](http://ontario.ca/outdoorscard), or visit one of the more than 70 ServiceOntario kiosks locations.
- If your Outdoors Card is **lost or stolen** or if you need more information about Outdoors Cards or fishing licences, call the Outdoors Card Centre from anywhere in North America at **1-800-387-7011**.
- You must carry your Outdoors Card and fishing licence tag or Temporary Fishing Licence and Outdoors Card Application with you whenever you are fishing. If a Conservation Officer asks to see your Outdoors Card, the law states you must show it.
- Your Outdoors Card is not transferable to another person – it provides privileges to you alone.
- It is an offence to attempt to obtain more than one card. It is also an offence to provide false information on a card application.
- One-year fishing licences expire December 31st of the year printed on the licence.
- Three-year fishing licences expire at the same time as the Outdoors Card, on December 31st of its third year. Your card's expiry year is the two numbers following your 15-digit card number.
- If you've applied for an Outdoors Card and haven't received it within the stated timeframe, call the Outdoors Card Centre at **1-800-387-7011**.

## RECREATIONAL FISHING LICENCE INFORMATION (CONTINUED)

The 2010 one-year licence fees listed in this summary are in effect from January 1, 2010 until December 31, 2010. The 2010 three-year licence fees are subject to change after August 31, 2010.

For the location of the licence issuer nearest you, contact the Ministry of Natural Resources. A list of Ministry of Natural Resources offices and ServiceOntario locations is provided on page 96.

## RECREATIONAL FISHING LICENCE INFORMATION FOR NON-CANADIAN RESIDENTS

Anyone who is not an Ontario or Canadian resident (see definitions, page 4) is considered a non-Canadian resident for the purposes of fishing licence regulations. Most non-Canadian residents require an Ontario fishing licence to fish in Ontario.

- Non-Canadian residents 18 years of age and over must purchase a fishing licence. **(NOTE: Non-Canadian residents 65 years of age or older are not exempt from requiring a licence.)**
- Non-Canadian residents under 18 years of age may fish without a licence if accompanied by an adult who has a valid fishing licence. Any fish kept are part of the catch and possession limit of the person who holds the licence. As another option, non-Canadian residents under 18 years may purchase a licence to have their own limits.
- Non-Canadian resident fishing licences are available through licence issuers and through the mail by calling the Ministry of Natural Resources at 1-800-667-1940. Please allow four weeks for delivery.

- For non-Canadian residents a complete and valid licence to fish consists of an Outdoors Card or a Temporary Outdoors Card and Application plus a valid fishing licence tag for non-Canadian residents carried as a separate document. The Outdoors Card is a plastic, wallet-sized card used for identification and administration purposes.
- For non-Canadian resident groups of children (at least five people under the age of 18 years) there is a special licence for members of an organized camp. This licence is available from ServiceOntario/Ministry of Natural Resources offices (see page 96).

**NOTE:** Non-Canadian residents camping on Crown lands in northwestern Ontario are subject to conservation licence limits except in the border waters area (see page 12).

### CANADIAN/NON-CANADIAN RESIDENT OUTDOORS CARD REQUIREMENT

The Ministry of Natural Resources (MNR) is working on a project to improve the fishing and hunting licensing system. Once these improvements are complete, Canadian/non-Canadian resident anglers will be able to purchase Ontario fishing licences from home, using the Internet or the automated toll-free phone system. As part of this project, MNR will also be developing an automated licensing system for licence issuers to improve service to anglers and hunters. See page 5 for more information on the new automated licensing system.

The automated system will mean that all anglers and hunters will need a unique identification number. That is why MNR has extended the requirement to have an Outdoors Card to Canadian/non-Canadian resident anglers and hunters, effective January 1, 2009. The Outdoors Card is required to purchase an Ontario fishing or hunting licence, except for a One-Day Sport Fishing Licence.

Canadian/non-Canadian resident anglers and hunters will be able to purchase their initial Outdoors Card by filling out an application at any ServiceOntario counter or Ontario fishing and hunting licence issuer. There are over 1,800 licence issuers located throughout the province.

The paper application will serve as a temporary Outdoors Card until the plastic card is received in the mail.

Non-Canadian resident fishing licences are also available through the mail by calling the Ministry of Natural Resources at 1-800-667-1940. Please allow 4-6 weeks for delivery. All fees include GST.

# GENERAL FISHING REGULATIONS

## ANGLER'S GUIDE TO FISHING REGULATIONS

**NOTE:** This section contains important information that anglers must understand to make sure they follow the regulations.

**Additional Fishing Opportunities** – There are some waters where regulations for certain species are more liberal than the Zone regulations. These include areas where anglers may fish for a species during part or all of the time when the season is generally closed in the Zone and include extended seasons or open all year seasons for some species. Often these additional opportunities are provided through fish stocking.

**Aggregate Limits** – Aggregate limits are catch and possession limits for a combination of fish species. Where there are aggregate limits, you may not catch and retain a separate limit of each species. In this Summary, limits stated for walleye and sauger are aggregate limits as are limits for largemouth and smallmouth bass and the limits for black and white crappie. The aggregate limits for these species can be found in the Zone-extended tables or in the exceptions for each Zone. See also Catch and Possession Limits, below.

**Aggregate Limits for Trout and Salmon** – In addition, throughout the province there are standard aggregate limits for all species of trout and salmon in combination: S – 5 and C – 2; that is you may only catch and keep in one day or possess no more than five trout and salmon in total under a Sport Fishing Licence or two trout and salmon in total under a Conservation Fishing Licence. **NOTE:** In addition to the aggregate limit, you may not exceed individual species limits where they are otherwise stated (e.g., the S limit for Atlantic salmon is one and you may not catch and keep or possess more than one Atlantic salmon at any time).

**Angling** – Angling means fishing with a line **that is held in the hand or attached to a rod that is held in the hand or closely attended.**

**Artificial fly** – An artificial fly means a hook dressed with silk, wool, fur, feathers or similar material but does not include other types of artificial lures.

**Artificial Lure** – An artificial lure means a spoon, plug, jig, artificial fly or other such device that is designed to catch fish by means of angling.

**Bait** – There are some areas of the province where the use of any form of organic bait is not allowed. Organic bait includes live or dead animals, plants or parts. See Bait (page 10), or exceptions to the Zone regulations for the Zone where you are fishing.

**Baitfish** – Some species of fish may be used as bait in some areas (see Bait, page 10).

**Barbless Hook** – A barbless hook means a hook without barbs or one that has barbs that are compressed so as to be completely in contact with the shaft of the hook.

**Catch and Possession Limits** – The **catch** limit is the number of fish you are allowed to **catch and keep in one day** and includes fish that are retained for any period of time and any fish eaten or given away. The **possession** limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, or anywhere. Possession limits are the same as one day's catch limit except where otherwise specified.

In this summary:

- **S** – refers to limits under a Sport Fishing Licence  
(For example: S – 4 = catch and possession limit of four).
- **C** – refers to limits under a Conservation Fishing Licence  
(For example: C – 2 = catch and possession limit of two).

If you catch a fish after reaching the daily catch or possession limit for that species, the fish must be released immediately back to the water (see Ontario's Catch and Retain Rules, on page 9). If the limit is zero, anglers may practise catch and release only and any fish caught must be released immediately back into the water in a manner that does not harm the fish. For some species there are no limits and no reference will be made to a limit in this Summary. See Size Limits, next page.

**Check Stations** – Conservation Officers operate random "Fish Check Stations" throughout the year. At these stations, Conservation Officers collect information on fish taken and make sure that regulations are being followed in order to better manage our fisheries resources. Remember to keep all licences, equipment and fish easily accessible for inspection.

**Conservation Officers** – Conservation Officers enforce fisheries regulations in the Province of Ontario. They have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the *Fish and Wildlife Conservation Act* and the *Fisheries Act*. When carrying out their duties, Conservation Officers may do the following:

- Stop and inspect a vehicle, boat or aircraft
- Ask questions relevant to the inspection
- Inspect buildings or other places
- Require assistance to complete inspections
- Enter onto private property to perform their duties
- Search with a warrant
- Search without a warrant in circumstances requiring immediate action
- Seize items related to an offence
- Arrest anyone the Conservation Officer believes has committed, is committing, or is about to commit an offence.

**Crappie** – For the purpose of this Summary, crappie includes both black crappie and white crappie.

**Exceptions** – In specified waters, there are exceptions to the general regulations established for each Zone. These include fish sanctuaries, bait and gear restrictions and different seasons, limits and size limits for some species. **Anglers must check the exceptions for the waters where they will be fishing.**

**NOTE:** Some waters are grouped with other waters that have the same regulatory exceptions and these will generally be listed under the proper name for the largest or most significant water body. **If there is nothing stated in the exceptions, then the regulations for the Zone apply.**

**Export of Fish** – A person may, on leaving Ontario, take no more than the designated limits for fish.

## GENERAL FISHING REGULATIONS (CONTINUED)

**Fish Sanctuaries** – Fish sanctuaries are described in the Exceptions to Zone Regulations. No fishing of any kind is permitted in a fish sanctuary. Some bodies of water, or parts of them, are declared fish sanctuaries for all or part of the year. Fish sanctuaries are not always marked with signs. **Sanctuary dates are inclusive; all dates including the first and last dates stated in the summary are closed.**

**Fisheries Management Zone or Zone** – The province is divided into 20 Fisheries Management Zones (or Zones) for which there are general regulations that establish open seasons, limits and size limits (where applicable) for popular fish species. See also *Exceptions*.

**Hook** – A hook includes a single-pointed or multiple-pointed hook on a common shaft but does not include a snagger or spring gaff. The number of hooks includes any single-pointed or multiple-pointed hooks that are part of a lure.

**Hooks and Lines** – An angler may use only one line, unless otherwise stated in the regulations. Two lines may be used when angling from a boat in parts of the Great Lakes (see Exceptions to the General Regulations) and for ice fishing in many areas (see Ice Fishing, page 11). A fishing line must not have more than four hooks attached.

**Lead Sinkers and Jigs** – It is illegal to use or possess lead fishing sinkers or jigs in Canada's national parks and wildlife areas. Further information is available at [http://www.cws-scf.ec.gc.ca/tli-ppp/index\\_e.cfm](http://www.cws-scf.ec.gc.ca/tli-ppp/index_e.cfm)

**Live Holding Boxes** – If you use a live holding box or impounding device, it must be clearly marked with your name and address and it must be legible without having to lift the box, unless it forms part of or is attached to a boat. Any fish in holding boxes are part of your limit. Always monitor fish in your possession; allowing fish to waste is an offence. Catch and retain possession limits apply to live holding boxes.

**Livewell** – A livewell is a compartment designed to keep fish alive. For a livewell to be used to selectively release bass, walleye and northern pike, it must be attached to or form part of a boat, hold a total volume of not less than 46 litres (10 gallons) of water, have the capacity for water exchange and be mechanically aerated at all times when live fish are being held in it. (See Ontario's Catch and Retain Rules).

**Open Seasons** – Fishing season opening and closing dates vary depending on the species and the area. Dates are inclusive; all dates including the first and last dates stated in the summary are open or closed. **It is illegal to attempt to catch fish for which the season is closed, even if you are going to release them.** Fish accidentally caught during the closed season must be immediately released back to the water. Unless stated otherwise, species that are not listed (such as sucker and rock bass) have a year-round open season.

**Pacific Salmon** – For the purpose of this Summary, Pacific salmon include Chinook salmon, Coho salmon and Pink salmon.

**Size Limits** – All size limits refer to **total length** which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, **with the tail fin lobes compressed to give the maximum possible length.** Provincial regulations are established using the metric system.

**NOTE:** If you catch a fish in a restricted size range, you must release it immediately (see Units of Measure, below).

**Sunfish** – For the purpose of this summary, sunfish includes pumpkinseed, bluegill, green sunfish, warmouth, orange spotted sunfish, longear sunfish and *Lepomis* hybrids.

**Units of Measure** – There are many units of measure referred to in the Summary. Provincial regulations are established using the metric system and converted to imperial measurement units for the convenience of anglers. The following short forms are used:

- km = kilometre (or ml. = mile)
- m = metre (or ft. = feet)
- cm = centimetre (or in. = inches)

### GENERAL PROHIBITIONS – IT IS ILLEGAL TO:

- Fish for or possess the following specially protected fish species: American eel, cutlip minnow and reddsides dace.
- Possess any of the following live invasive species: rudd, ruffe, bighead carp, black carp, grass carp, silver carp, round goby, tubenose goby or any member of the snakehead family.
- Sell any recreationally-caught fish, crayfish, leeches, frogs, fish eggs or spawn. Only holders of commercial fishing and commercial bait licences may sell their catch.
- Possess a spring gaff, snagger or spear gun within 30 m (98 ft.) of any waters. A spring gaff includes any spring loaded device which sets the hook for an angler. No person shall take fish with a gaff, snare, snagger or spear gun. A gaff, other than a spring gaff, may be used to assist in landing fish caught by lawful means.
- Catch a fish by impaling or snagging it with a hook through any part of the body other than the mouth – any fish hooked in this way must be released immediately.
- Take fish by any means other than angling, spear, bow and arrow, net or bait fish trap.
- Possess a spear for the purpose of fishing on or within 30 m (98 ft.) of the edge of any waters except when fishing in accordance with the regulations (see Non-angling Methods, page 11).
- Use artificial lights to attract fish except:
  - to fish for smelt, or to fish for lake whitefish or lake herring with a dip net
  - if the light is part of a lure attached to a line used in angling.
- Transport live fish, other than baitfish, taken from Ontario waters or to transfer or stock any fish into Ontario's waters without a special licence to transport or stock fish.
- Use dynamite or other explosives to take or destroy fish.
- Fish within 25 m (81.8 ft.) of a pound net or fish culture cage.
- Fish within 22.9 m (75 ft.) downstream from the lower entrance to any fishway or canal, obstacle, or any device designed to assist fish around an obstacle.
- Transfer live fish or live spawn from one body of water to another without the authorization of the Ministry of Natural Resources.
- Abandon fish or permit the flesh to spoil, if the fish is suitable for human consumption.

## GENERAL FISHING REGULATIONS (CONTINUED)

### ONTARIO'S CATCH AND RETAIN RULES

Generally, daily catch limits include all fish that are retained for any period of time and not **immediately** released.

Anglers fishing from a boat may now catch, hold, and selectively live release, more walleye, northern pike, largemouth or smallmouth bass than the daily limit, **provided**:

- (a) the fish are held in a livewell with a mechanical aerator operating at all times, (see Anglers Guide, p. 8, for livewell requirements)
- (b) the fish comply with any applicable size limits,
- (c) the Sport or Conservation Fishing Licence daily catch and retain limits for walleye or northern pike are not exceeded at any one time,
- (d) no more than six largemouth or smallmouth bass (or any combination) caught under a Sport Fishing Licence are retained at any one time, and

- (e) the Conservation Fishing Licence catch and retain limits for largemouth and smallmouth bass (or any combination) are not exceeded at any one time.

Anglers are reminded to closely monitor the condition of fish held in a livewell. Only fish that are in such a condition that they will survive may be released (see Tips on Live Release of Fish, page 10). Releasing a fish that will not survive and allowing the flesh of that fish to be wasted is an offence. **Any fish not live-released are part of your daily catch and retain limit.**

### TRANSPORTING SPORT FISH IN ONTARIO

It is contrary to the *Fish and Wildlife Conservation Act* to stock or transport live sport fish without a permit. Anglers need to ensure they are transporting fish in compliance with the regulations, which are designed to protect fisheries resources. The fish that you catch and keep may be cleaned. However, please remember that **fish taken from waterbodies where size limits are in effect must be readily measurable at all times, unless the fish are:**

- Being prepared for immediate consumption
- Prepared at an overnight accommodation for storage
- Being transported on the water from a temporary overnight accommodation to your residence and you are not engaged in sport fishing

- Being transported overland.

In addition, when packaging fish you must ensure that a Conservation Officer can easily determine:

- The number of fish in your possession
- The species of fish in your possession. This may require leaving a large patch of skin, the head, or some other identifying feature depending on the species of fish (e.g. Lake whitefish vs Lake herring).

### TIPS FOR PACKAGING FISH

- 1. All fish must be packaged so that they can be easily counted and identified, not just those with limits.

- 2. To ensure fish can be easily counted, package each fish separately, or arrange fillets spread flat in a clear freezer bag. **DO NOT** freeze fillets in a milk carton, margarine tub or other container. A large lump of fillets frozen together in bags is also unacceptable.

- 3. Since anglers often transport various species of fish, it's their responsibility to ensure every fillet of their catch can be easily identified. Ensure you leave at least a large patch of skin on all fish fillets for identification purposes. Some species (e.g. Lake whitefish or Lake herring) may require additional identifying features such as the head.

- 4. Conservation Officers may inspect your catch at any time. Always have your fish and your licence easily accessible and place coolers of fish where they can be easily inspected. No one wants to unload a vehicle to find licences and coolers.

- 5. If a Conservation Officer inspects the sport fish you're transporting and they are improperly packaged:

- Your catch may be seized for evidence
- You could get a ticket and be fined
- You may have to attend court, usually close to where the inspection took place, which may be far from where you live.

- Frozen fish fillets without skin attached
- Species cannot be identified
- Numbers can be counted

- Fillets form a frozen block
- Numbers cannot be counted
- Species cannot be determined on all fillets

- Walleye fillets properly packaged
- Whole skin attached
- Can be counted and identified

- Walleye fillets
- Patch of skin attached
- Can be counted and identified

- Perch and Walleye fillets
- Patch of skin attached

- Pike fillets
- Individually packaged

## TIPS ON LIVE RELEASE OF FISH

Using proper handling and release techniques improves fish survival. Here are some tips for releasing fish:

1. Use barbless hooks and artificial lures (no organic bait) to prevent deep hooking.
2. Land fish as quickly as possible and use a rubber landing net if needed.
3. Keep the fish in the water as much as possible and handle the fish gently.
4. Wet your hands or use wet cloth gloves when handling fish out of water.
5. Do not touch the gills or eyes. Grasp the fish just behind the gill covers, or for fish without teeth (for example, bass or panfish), hold the fish by the lower lip.

6. Use long-nose pliers to remove the hook quickly without injuring the fish. If the fish is hooked deeply, cut the line and leave the hook in.
7. If you want to take a picture, be ready ahead of time, hold the fish in a horizontal position supporting its weight with your arm and hands, and take pictures quickly, minimizing the time the fish is out of water.
8. When releasing the fish, hold it in the water so that it is facing into the current or if there is no current, gently move the fish in a forward direction so water flows through the gills.
9. When the fish begins to struggle, is breathing normally and can keep its balance, let it swim away.
10. Remember that all fish not immediately released count towards your daily catch or possession limits (also see Ontario's Catch and Return Rules).

### BAIT

Anglers with a valid recreational fishing licence may capture their own bait for personal use as follows:

BAIT	LIMIT	NOTES
Baitfish	120 Includes those caught and or purchased. See list of permitted baitfish species.	Only resident anglers may capture baitfish, using the methods outlined below.  One baitfish trap no more than 51 cm (20 in.) long and 31 cm (12.2 in.) wide can be used day or night. Bait-fish traps must be clearly marked with the licence holder's name and address.  One dip-net no more than 183 cm (6 ft.) on each side if square, or 183 cm (6 ft.) across if circular, during daylight hours only (after sunrise and before sunset).  <b>Dip-nets and baitfish traps may not be used in Algonquin Park.</b>
Leeches	120 Includes those caught and or purchased.	Only one leech trap no more than 45 cm (17.7 in.) in any dimension can be used day or night to capture leeches. Leech traps must be clearly marked with the licence holder's name and address.
Crayfish	36	Must be used in same water body where caught. May not be transported overland. May be captured by hand or using the methods outlined for Baitfish above.
Frogs	12	Only northern leopard frogs may be captured or used as bait.

**NOTE:** The capture and use of bait is not allowed in some waters (see other Zone Regulations or Exceptions for the Zone you are fishing in).

**SALAMANDERS CANNOT BE CAPTURED, IMPORTED, OR USED AS BAIT IN ONTARIO.**

### IMPORT OF BAIT

It is illegal to bring any crayfish or salamanders or live fish or leeches into Ontario for use as bait.

### NO RELEASE OF BAIT

It is illegal to release any live bait or dump the contents of a bait bucket including the water, into any waters or within 30 m of any waters (see page 13).

### BAITFISH

Please note that a number of changes have been made to bait regulations to protect rare and endangered species, conserve biodiversity and prevent the spread of invasive species. Anglers may not use live yellow perch and alewife as bait anywhere in Ontario.

#### Baitfish

Only the fish species listed below may be used as live bait:

#### Minnows

Blacknose shiner  
Blackchin shiner  
Bluntnose minnow  
Brassy minnow  
Central stoneroller  
Common shiner  
Creek chub  
Eastern blacknose dace  
Emerald shiner  
Fallfish  
Fathead minnow  
Finescale dace  
Golden shiner  
Hornyhead chub  
Lake chub  
Longnose dace  
Mimic shiner  
Northern redbelly dace  
Pearl dace  
Redfin shiner  
River chub  
Rosyface shiner  
Sand shiner  
Spotfin shiner  
Spottail shiner  
Striped shiner

#### Suckers

White sucker  
Longnose sucker

#### Others

Central mudminnow  
Lake herring (cisco)  
Trout-Perch

#### Sticklebacks

Brook stickleback  
Ninespine stickleback

#### Sculpins

Mottled sculpin  
Slimy sculpin

#### Darters and Logperch

Blackside darter  
Fantail darter  
Iowa darter  
Johnny darter  
Least darter  
Rainbow darter  
River darter  
Tessellated darter  
Logperch

# GENERAL FISHING REGULATIONS (CONTINUED)

## GAME AMPHIBIANS AND REPTILES

Holders of valid recreational fishing licences may catch and retain bullfrogs and snapping turtles during open seasons. For details on harvest areas, season dates and catch and possession limits, see the *Ontario Hunting Regulations Summary*.

## ICE FISHING

Two lines may be used for ice fishing except in a limited number of waters (see the Exceptions for the Zone in which you are fishing). You must be within 60 m (197 ft.) at all times of any line or tip-up you are using when ice fishing and you must have a clear and unobstructed view of the lines being used at all times. Any spring loaded device which sets the hook for an angler may not be possessed within 30 m (98 ft.) of any waters.

## ICE HUT REGISTRATION

Ice fishing huts must be registered if they are being used in the following Fisheries Management Zones and must be removed by the dates indicated below. To register an ice fishing hut contact your local MNR office. Once registered, an ice fishing hut can be used anywhere in Ontario.

ZONES IN WHICH ICE HUT REGISTRATION IS REQUIRED	ICE HUT REMOVAL DATE
17, 20	March 1
14, 16, 18, 19	March 15
9, 10, 11, 15	March 31
12	Above Lake Timiskaming Dam - March 31 Below Lake Timiskaming Dam - March 15

Ice hut registration numbers must be at least 6.3 cm (2.5 in.) in height and clearly displayed on the outside of the hut.

You do not need to register your ice hut or abide by specific removal dates:

- in Zones 1-8 and 13, or
- if your ice hut is a tent made of cloth or synthetic fabric that has a base area of seven square metres (75.4 square feet) or less when erected.

**Note:** It is an offence under the Public Lands Act to leave your ice hut out after ice break up, regardless of whether registration and removal dates apply.

## NON-ANGLING METHODS OF CAPTURING FISH

Residents and non-Canadian residents with a valid recreational fishing licence may fish with one dip net, one seine net, one spear or a bow and arrow for the species outlined below.

**Dip nets** may be no more than 183 cm (6 ft.) on each side if square, or 183 cm (6 ft.) in diameter, if circular.

**Seine nets** may be no more than 10 m (32.8 ft.) long and 2 m (6.5 ft.) high.

**Spears** cannot be possessed on or within 30 m (98 ft.) of the edge

of any waterbody except when fishing for carp and white sucker as described on this page. **Northern pike spearing is not allowed.**

**Bow and arrow:** includes all longbows and crossbows.

## GENERAL FISHING REGULATIONS (CONTINUED)

### BOUNDARY WATERS

#### Licences for Provincial Boundary Waters

##### Ontario-Quebec Boundary

Anglers may fish in the following waters with either an Ontario Resident Fishing Licence or a Quebec Resident Fishing Licence.

- Clarice Lake (48°20'N., 79°32'W.).
- Labyrinth Lake (48°14'N., 79°31'W.).
- Raven Lake (48°03'N., 79°33'W.).
- Lake Timiskaming (47°20'N., 79°30'W.).
- Ottawa River (45°34'N., 74°23'W.).
- Lake St. Francis (45°08'N., 74°25'W.) and the waters of the St. Lawrence River between the dam at the Robert H. Saunders Generating Station and the Ontario-Quebec boundary.

##### Ontario-Manitoba Boundary

Anglers may fish in the following waters with either an Ontario Resident Fishing Licence or a Manitoba Resident Fishing Licence.

- Garner Lake (50°48'N., 95°11'W.).
- Davidson Lake (50°21'N., 95°09'W.).
- Ryerson Lake (50°23'N., 95°09'W.).
- Mantario Lake (49°95'N., 95°10'W.).
- Frances Lake (51°43'N., 95°08'W.).
- Moar Lake (52°00'N., 95°07'W.).
- High Lake (49°42'N., 95°08'W.).

#### Limits in Boundary Waters

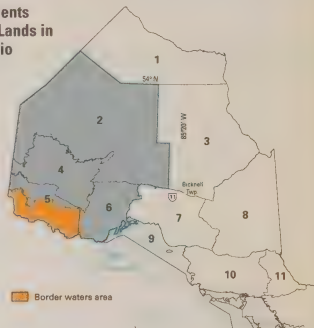

Anglers who fish in waters that lie both in Ontario and another province or state must include the total number of fish caught anywhere in those waters as part of the number caught and kept or possessed under the Ontario recreational fishing regulations when bringing those fish into Ontario.

### NORTHWESTERN ONTARIO REGULATIONS FOR NON-CANADIAN RESIDENTS

#### Crown Land Camping

Non-Canadian residents camping on Crown land in the areas shown in blue on the map below must follow Conservation Fishing Licence limits in Zones 2, 4, 6 and Zone 5 (except in the border waters area).

#### Non-Canadian residents Camping on Crown Lands in Northwestern Ontario

#### Border Waters Area

There are exceptions in the border waters area of Northwestern Ontario, Zone 5, that affect the number of walleye, sauger and lake trout that non-Canadian resident anglers can catch and keep or possess. See, Northwestern Ontario Regulations for Border Waters, Zone 5 (page 23).

#### Winnipeg River and the Sydney Lake Area

There are also exceptions for the Winnipeg River, Zone 5 and the Sydney Lake Area, Zone 2 and 4 that affect non-Canadian resident anglers. See, exceptions for Zones 2, 4 and 5.

### Ontario Conservation Officers

1-877-TIPS-MNR (847-7687)

Conservation Officers (COs) are law enforcement professionals trained to preserve and protect the province's natural resources and public safety.

Their job is to prevent and stop abuse of Ontario's natural resources so that legitimate, responsible users can continue to enjoy and benefit from them.

Conservation Officers have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the Fish and Wildlife Conservation Act, the Migratory Birds Convention Act, Small Vessel Regulations, Liquor Licence Act and the Fisheries Act.

COs routinely conduct investigations, audits and inspections of recreational and commercial resource users. They participate in community outreach events to help raise public awareness and understanding about the laws that protect Ontario's natural resources.

## LAWS TO HELP STOP THE SPREAD OF INVADING SPECIES

Harmful introduced species are often spread unknowingly. As an angler or boater, you should always take precautions to help stop the spread of invading species. The following laws are in place to prevent unauthorized introductions.

### POSSESSING LIVE FISH

**It is illegal to possess live invasive fish including: round goby, tubenose goby, grass carp, bighead carp, black carp, silver carp, rudd, ruffe and any species of snakehead. If any of these species are caught they should be destroyed and not released back into any waters.**

### MOVING LIVE FISH

Many new populations of fish have been established through unauthorized stocking. This practice is illegal and can cause great harm to existing fisheries and aquatic ecosystems. **A licence is required for all fish (including live spawn) transfers and stocking into Ontario waters, and a licence is required to ship or transport live fish, other than baitfish, taken from Ontario waters.** Also, take care when cleaning smelt. Do not rinse equipment or dump entrails into a lake or river. Fertilized smelt eggs can easily invade new waters.

### AQUARIUM FISH

Never release or flush pets, plants or water from aquaria, backyard ponds or water gardens. It is illegal and can harm the environment. If you have an unwanted aquarium pet, you can return it to a local pet store, donate it to a school or contact the Fish Rescue Program at 1-800-563-7711.

### CRAYFISH

Crayfish can only be used for bait in the waterbody in which they were caught and they cannot be transported overland.

### ROUND GOBY

The round goby is frequently caught by anglers. It is just one of the many serious threats to North American waters. Since its discovery in the St. Clair River in 1990, this bottom-dwelling fish has rapidly spread to many areas of the Great Lakes and inland waters. The round goby can displace native fish from optimal habitat, eat their eggs and young and spawn multiple times a season. Anglers should know how to identify the round goby - these aggressive fish are easily caught by hook and line.

Credit: Donna Francis

#### WHAT YOU CAN DO...

- Report new sightings. If you catch a round goby it should be destroyed and not released back into any waters.
- Always dispose of your unwanted bait and the contents of your bait bucket or bait bucket water on land or in the trash - it is illegal to dump the contents of a bait bucket into any waters or within 30 metres of any waters.
- Never use gobies as bait - remember it is against the law to use them as bait or have live gobies in your possession.

For more information or to report a sighting, call the **Invading Species Hotline 1-800-563-7711** or visit [www.invadingspecies.com](http://www.invadingspecies.com).

BY SPREADING THE WORD AND TAKING ACTION AGAINST INVADING SPECIES YOU CAN HELP CONSERVE ONTARIO'S HEALTHY FISHERIES!

## WHAT YOU SHOULD KNOW ABOUT VHS

### Help Slow the Spread of VHS

Viral Hemorrhagic Septicemia (VHS) is an infectious disease of fish. VHS is not a threat to human health. Fish carrying the VHS virus are safe to eat and handle.

You can help slow the spread of this virus and other invasive species by following the laws outlined above (Laws to Help

Stop the Spread of Invasive Species) and the guidelines on page 57 (Keep All Our Lakes Great).

Anglers are asked not to move bait voluntarily outside the VHS management zone.

More information is available at [ontario.ca/fishing](http://ontario.ca/fishing) or call Natural Resources Information Centre at 1-800-667-1940.

## A Message From Ontario's Conservation Officers

Unused bait and the contents of bait containers must only be disposed of on dry land at least 30 metres from the water's edge.

## NORTHWESTERN ONTARIO – UNITED STATES BORDER WATERS REGULATIONS FOR NON-CANADIAN RESIDENT ANGLERS

See map, page 22, for the location of the border waters area which includes: Lake of the Woods (including Cul de Sac and Obabikun Lakes and waters of the Aulneau and Western Peninsulas), Rainy River (from Wheeler Point upstream to the Fort Frances Dam), Rainy Lake (including the portion of the Seine River System upstream to the Crilly Dam and Rainy River from Rainy Lake to the Fort Frances Dam), and the remaining Fort Frances and Dryden District lakes. The

following inland lakes are considered to fall entirely within the border waters area (green shaded area on the Zone 5 map): Rowan, Katimiagagimik, Dibble, White Otter, Nora, Kanoshay, Pine, Elsie Lake, Guliver, Cloven, Campus, Fish, Adele, Portage, Pyramid, Mack, Saganagons, Amit, Moose Bay, Lower Scotch and four unnamed lakes situated at the following coordinates (49°12'N., 91°37'W.), (49°12'N., 91°56'W.), (49°12'N., 91°58'W.), and (48°22'N., 90°58'W.).

There are regulations in the border waters area that affect the number of walleye, sauger and lake trout that non-Canadian residents can catch and retain in one day and the total number that can be possessed at any time (see next page). For all other species, non-Canadian residents should refer to seasons and catch and possession limits for Zone 5, including the exceptions to the regulations.

## 2010 Survey of Recreational Fishing

The Survey of Recreational Fishing in Canada is conducted every 5 years and provides MNR with valuable information on the amount of time anglers spend fishing, the fish species they prefer, how many they catch and keep, and how much money they spend on fishing in Ontario.

The 2010 Survey of Recreational Fishing will be mailed to about 15,000 anglers in January 2011. If you are selected for this survey, you will be asked questions about your fishing experience over the previous year. To help support this survey, we encourage you to keep track of the locations and numbers of days you fish, how many fish of each species you catch and keep, and how much you spend on fishing-related activities. Handy diary pages for tracking this information are available on the <http://www.ontario.ca/fishing> web site.

Results from previous surveys are also available on MNR's internet site: <http://www.mnr.gov.on.ca/277536.html>.

## A Message From Ontario's Conservation Officers

Know your "daily" fishing limit for the waters you intend to fish. You may only catch your own limit - there are no provisions for "party" fishing or excluding fish that you may have consumed or plan to consume that day.

## National Salmon Production

Working Together to Bring Back a Part  
of Ontario's Natural Heritage

Jason Mortlock

Many conservation-minded individuals and organizations are working together to restore wild populations of Atlantic salmon to Lake Ontario.

As an angler, you can help. Remember that if you catch an Atlantic salmon in any Lake Ontario stream, you must release it, unharmed. If you have a Sport Fishing Licence,

you may keep one Atlantic salmon over 63 cm (25 inches) a day, from Lake Ontario. Please note that the Atlantic salmon limit in the lake is zero for holders of a Conservation Fishing Licence.

Atlantic salmon can easily be confused with other salmon and trout. For tips on identification and to learn more about this exciting program, please visit:

# You Can Help Fill In the Blank

Fish caught under a sport fishing licence cannot be legally bought or sold.

The sale of sport caught fish threatens the fish stocks in your lakes and rivers through over harvest; the people who sell sport caught fish put your health and safety at risk from listeria, E. coli and salmonella.

Solving a crime is like putting a puzzle together, each piece of information is important and your call can help fill in the blanks.

If you have any information about the sale of sport caught fish, or any other serious crime, call Crime Stoppers at **1-800-222-TIPS (8477)**

All calls to Crime Stoppers remain anonymous and you could be eligible for a cash reward.

## A Message From Ontario's Conservation Officers

Size limits ensure that the primary breeding size of fish are protected to maximize reproductive capacity. If you keep illegal sized fish, you are harming the very fishery you hope to enjoy in the future.

# STOP INVADING SPECIES!

Invading species threaten Ontario's biodiversity, and our lakes and waterways.

## ANGLERS & BOATERS YOU CAN HELP!

Before you leave the boat launch:

- ✓ Remove all aquatic plants, mussels or other visible organisms and put them in the garbage.
- ✓ Drain the water from your boat including the motor, livewell, and the bilge.
- ✓ Do not release live bait! Empty your bait bucket on land, 30m away from the water's edge.
- ✓ Remove organisms you can't see on your boat by:
  - rinsing with hot water ( $>50^{\circ}\text{C}$ ) OR
  - spraying with high-pressure water, OR
  - drying in the sun for five days.

# Working to Restore Healthy Fish Communities

Images: Lori Fox-Ross

Fish stocking helps to protect and restore healthy populations of native and non-native species.

Ontario stocks about seven million fish yearly. About half of these fish are stocked in Great Lakes waters.

We stock healthy, wild strains of native fish species to help conserve Ontario's aquatic biodiversity.

We raise wild strains of lake trout and brook trout at locations, such as our newly modernized Dorion facility near Thunder Bay, to help rehabilitate local populations of these species.

Stocking also helps efforts to restore native species that once existed in our province's lakes, like Lake Ontario's Atlantic salmon.

We stock fish to enhance angling opportunities, too. Walleye, rainbow trout and brown trout are all prized by sport anglers.

## Ontario Conservation Officers

Who we are  
and what we do.

Conservation Officers (COs) are law enforcement professionals trained to preserve and protect the province's natural resources and public safety.

Their job is to prevent and stop abuse of Ontario's natural resources so that legitimate, responsible users can continue to enjoy and benefit from them.

Conservation Officers have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the Fish and Wildlife Conservation Act, the Migratory Birds Convention Act, Small Vessel Regulations, Liquor Licence Act and the Fisheries Act.

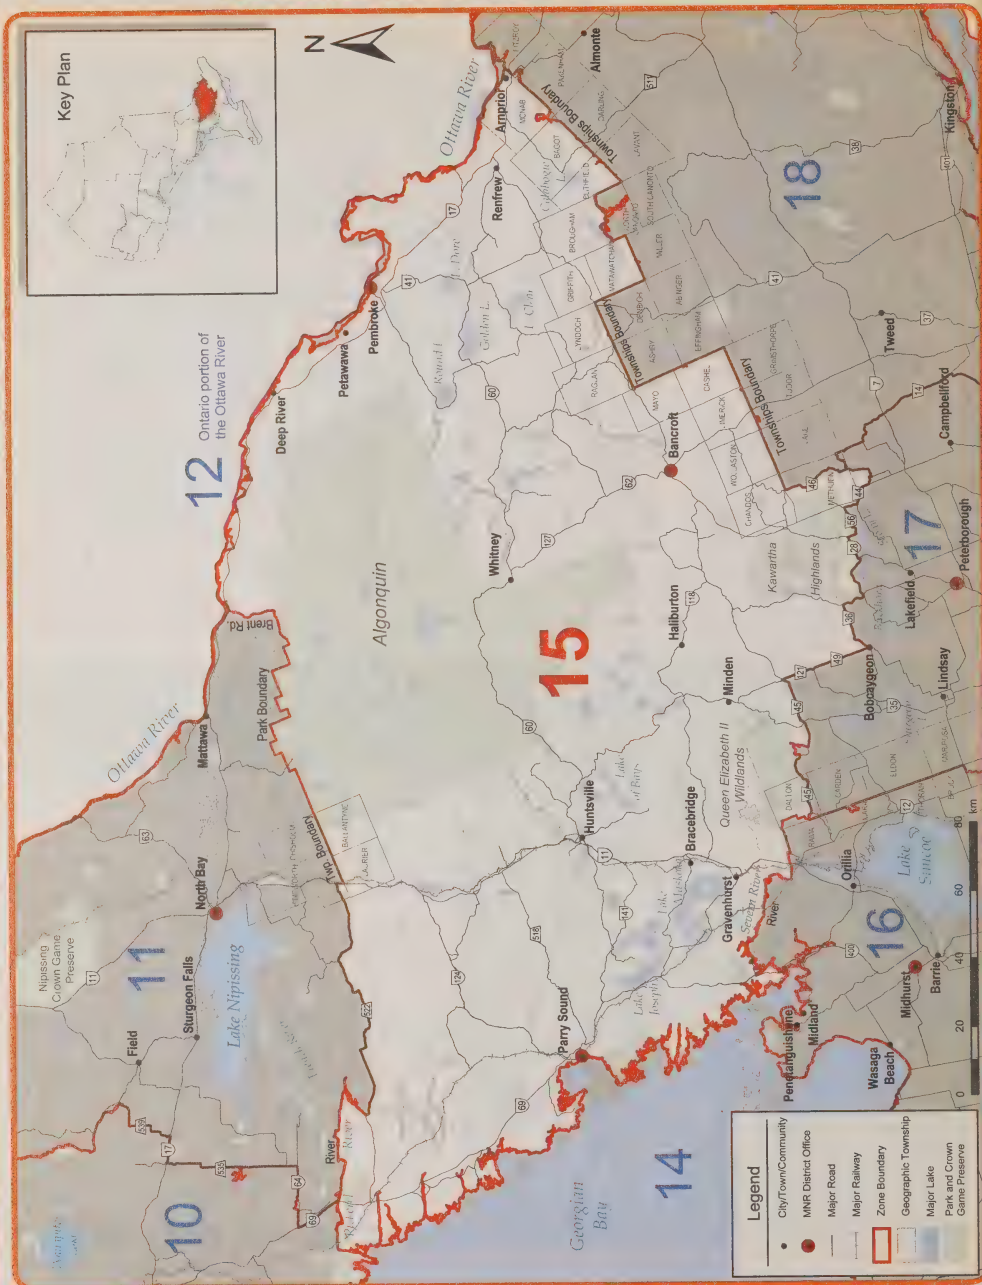

COs routinely conduct investigations, audits and inspections of recreational and commercial resource users. They participate in community outreach events to help raise public awareness and understanding about the laws that protect Ontario's natural resources.

For information on becoming a Conservation Officer, visit our website at [ontario.ca/conservationofficer](http://ontario.ca/conservationofficer)

**BE FireSmart.**

**Build a safe campfire not a wildfire**

### Safe Campfires are built:

1. on bare soil or exposed rock
2. sheltered from the wind
3. at least three metres from the forest, overhanging branches or other flammable material.

### Safe Campfires have:

4. a pail of water and a shovel at hand to control the fire
5. someone tending them all the time.

### Safe Campfires are:

6. small...a small fire is best for cooking, and is easier to control and put out. The forest is no place for a bonfire.
7. put out as soon as possible. How?
  - Douse with water then stir the ashes with a stick or shovel to uncover hot coals, and douse again.

Working Together to Bring Back a Part  
of Ontario's Natural Heritage

After being absent from the watershed for more than 100 years, Atlantic salmon are returning, once again, to Lake Ontario streams to spawn.

The Ministry of Natural Resources is proud to be working alongside Australia's Banrock Station Wines, the Ontario Federation of Anglers and Hunters, the Liquor

Control Board of Ontario and many other partners to restore this treasured native species. Lead sponsors have contributed over \$1.5 million towards bringing back Atlantic salmon.

## A Message From Ontario's Conservation Officers

There are many sanctuaries in the province where fishing is prohibited, either on a seasonal or year-round basis. You must ensure that your angling does not take place in any of these areas during the closed time.

# RECOMMENDED LURES FOR ONTARIO'S GAMEFISH

by **LUCKY STRIKE**

**LUCKY STRIKE**, an Ontario fishing tackle manufacturer for 79 years, is proud to recommend our best selection in lures for some of Ontario's most popular game fish.

## SMALLMOUTH BASS

Commonly referred to as smallies or bronzebacks the Smallmouth Bass are a thrill to catch because of their fierce fighting qualities.

Main Diet: Crayfish, frogs, insects and fish eggs.

## RECOMMENDED LURES:

Crankbaits, worm harness and spinnerbaits

**Pro Series Spinnerbaits**

## WALLEYE

Walleye are one of the best tasting catches in Ontario. They get their name from their large glassy eyes which are very sensitive to sunlight. Dusk and dawn are ideal times for catching this favourite.

Main Diet: A wide variety of other fishes, especially perch.

## RECOMMENDED LURES:

Lead-free jigs with grubtail or minnow and spinners

**June Bug Spinner**

## LAKE TROUT

Lake Trout are found in deep water where they can retreat to cooler depths in the summer. Temperatures around the 10°C/50°F mark are preferred by this prized catch.

Main Diet: insects, opossum shrimp, herring and smaller trout.

## RECOMMENDED LURES:

Trolling spoons with a wide range of colours

**Warden's Worry**

## MUSKELLUNGE

An Ontario favourite due to the Musky's fierce darting attack and because of their large size. The Canadian angling record from Blackstone Harbour, Georgian Bay, Ontario is 29.48 Kg, or 64.99 lbs.

Main Diet: other fish, frogs, small mammals and waterfowl.

## RECOMMENDED LURES:

Large plugs, bucktail spinners, spoons and spinner baits

**OI' Wooden Musky Plug**

*Catch Fishing*

Lucky Strike presently manufactures close to 2,000 different tackle items and landing nets. If you want to purchase any of the above favourites check with your local tackle retailer or contact Lucky Strike at 1-877 LURES4U (587-3748) or [www.luckystrikebaitworks.com](http://www.luckystrikebaitworks.com) for more information.

## LUCKY STRIKE

Basket Net

NORTHERN PIKE

provides Ontario's anglers with a wide variety of equipment to land their catch safely and quickly. New designs incorporating flat bottom landing net bags with rubberized mesh, cradle the fish, presenting it to the angler for easy handling.

Pike are solitary and are found in lakes and rivers where the water is still or in slow currents. Females grow larger, faster and live longer than males; life span is up to 26 years.

Main Diet: Over 90% of the diet for adult Pike are other fish, mainly Yellow Perch and shiners. Frogs, crayfish, mice, muskrats and ducklings provide meals as well.

CHINOOK SALMON

Chinook Salmon have been stocked in the Great Lakes region which has enhanced the sportfishing and tourism industries of Ontario. More commonly known as King Salmon, this fish species is sought after by anglers because of their fierce fighting power and size.

Main Diet: Freshwater herring, smelt, crustaceans and insects.

LARGEMOUTH BASS

Most popular in Southern Ontario the Largemouth Bass can be found in calm shallow areas of lakes and large river bays. Unlike it's cousin, the Smallmouth Bass, it favours heavy aquatic vegetation and submerged logs.

Main Diet: A variety of fishes, insects, leeches, crayfish, frogs and mice.

BROOK TROUT

Other common names for this fish are Speckled Trout, Squaretail and Brookie. Specks can be found in Central and Northern Ontario streams and lakes, usually in less than 20°C water. Favourite spots are shaded areas like under fallen trees, underneath banks, and behind rocks.

Main Diet: Food includes aquatic insects, various fish including their own young, frogs, salamanders and mice.

## RECOMMENDED LURES:

Trolling Spoons and Plugs of red and white colour combinations are most effective

Half Wave Spoon

## RECOMMENDED LURES:

Flutter spoons on downriggers and .75 to 1.3 ounce spoons for flatlining. Silver combinations and glow in the dark colours are popular

Canoe Wobbler

## RECOMMENDED LURES:

Recommended Lures. Soft plastic worms and frogs, surface baits, crankbaits and jigs

Texas Weedless

## RECOMMENDED LURES:

Spinners, spoons, plugs, jigs, wet and dry flies

Toronto Wobbler

## Recreational activities near hydro stations and dams are dangerous

For your own safety obey all warnings at hydroelectric stations, dams and their surrounding shorelines and waterways. These facilities operate year-round, affecting water flows. Water that looks safe can become treacherous in minutes and ice forming near, or even several kilometres away, can become dangerous. Signs, fences, buoys and safety booms are there to warn you, but if you see water levels changing, move a safe distance away immediately. Be advised that people trespassing on OPG property face charges, with fines of up to \$2,000.

# Check Before You Eat!

Fish are low in fat and offer an excellent source of high-quality protein and other essential nutrients. However, some fish from Ontario waters can contain high levels of contaminants.

*The Guide to Eating Ontario Sport Fish* provides information on the safe consumption of sport fish (meals per month) from more than 1,800 lakes and rivers in Ontario, with separate recommendations for both the general and sensitive population (women of child bearing age and children under 15).

To minimize your contaminant exposure, follow these general tips:

- Eat pan fish, such as perch, sunfish and crappie, as they tend to have lower contaminants than predator fish like walleye and pike.
- If you decide to eat predator fish, eat smaller rather than larger ones.
- In the Great Lakes, species such as bass, pike, and walleye tend to have lower contaminants than fatty species such as salmon and trout.
- Trim away skin and belly fat from fatty fish, avoid eating organs/eggs, and cook the fish properly.
- Refer to the Guide to determine the size and quantities of fish that can be safely eaten from specific lakes and rivers in Ontario.

Copies of the Guide are available free of charge from various locations such as selected LCBO outlets, Walmart, Canadian Tire, bait and tackle shops, government offices, provincial parks and health units. The Guide is also available on our website ([www.ontario.ca/fishguide](http://www.ontario.ca/fishguide)), or a copy can be requested using the online form or by calling us (416-327-6816 or 1-800-820-2716).
